DECEMBER 2022

Early Literacy Edition

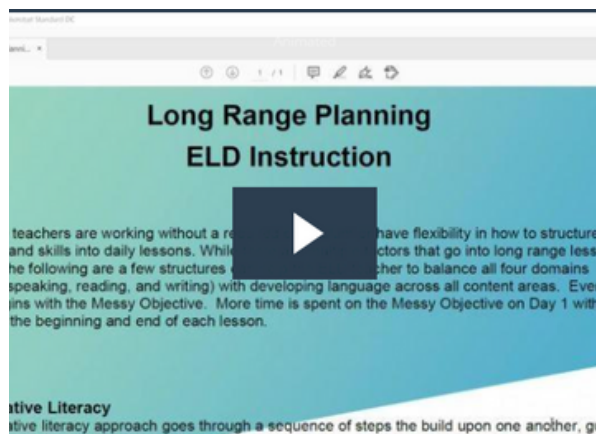

There's a lot of research out there about teaching early literacy. The truth is, not much takes learning a second language or being multi-lingual into account. At English Learner Portal we base our work on research as well as years of practical, in the classroom experiences. There is no one way that works for all students. In this edition, we share a few strategies that have worked for us and can be used across content areas for integrating language, literacy, and content.
